

Workshop (2 full sessions)

Ia & Ib. Artificial Intelligence Versus Neural Modeling in Psychological Theory

Participants include: P. & P. Churchland, P.C. Dodwell, J. Feldman, A. Goldman, S. Grossberg, S.J. Hanson, A. Newell, A. Pellionisz, R. Schank.

Symposia (10)

II. Category Formation

Participants include: S. Harnad, R. Jackendoff, N. Macmillan, C. Mervis, R. Millikan, R. Schank.

III. Unconscious Processing

Participants include: T. Carr, A. Marcel, P. Merikle.

IV. Memory and Consciousness

Participants include: K. Bowers, M. Moscovitch, D. Schacter, A. Marcel, R. Lockhart, E. Tulving.

V. New Directions in Evolutionary Theory

Participants include: A. Rosenberg, M. Ruse, E. Sober.

VI. Paradoxical Neurological Syndromes

Participants include: A. Kertesz, A. Marcel, M. Moscovitch

VII. The Empirical Status of Psychoanalytic Theory

Participants include: M. Eagle, E. Erwin, A. Grunbaum, J. Masling, B. von Eckardt.

VIII. The Scientific Status of Parapsychological Research

Participants include: J. Alcock, C. Honorton, R.L. Morris, M. Truzzi.

IX. The Reality of the "G" (General) Factor in the Measurement and Modeling of Intelligence

Participants include: A. Jensen, W. Rozeboom.

X. The Ascription of Knowledge States to Children: Seeing, Believing and Knowing

Participants include: D. Olson & J. Astington, J. Perner & H. Wimmer, M. Taylor & J. Flavell, F. Dretske, S. Kuczaj.

XI. Psychology, Pictures and Drawing

Participants include: J. Caron-Prague, S. Dennis, J. Kennedy, D. Pariser, S. Wilcox, J. Willats, S. Brison

Contributed Paper Sessions (4):

XII. Perception and Cognition

To What Extent Do Beliefs Affect Apparent Motion (M. Dawson, R. Wright)

Images, Pictures and Percepts (D. Reisberg, D. Chambers)

What the First Words Tell Us About Meaning and Cognition (A. Gopnik)

XIII. Induction and Information

Beyond Holism: Induction in the Context of Problem-Solving (P. Thagard, K. Holyoak)

The Semantic of Pragmatics (M.A. Gluck, J.E. Corter)

About Promises (J. Astington)

XIV. Evolution of Cognitive and Social Structures

Is Decision Theory Reducible to Evolutionary Biology? (W.E. Coop-

er)

Human Nature, Love and Morality: The Possibility of Altruism (L. Thomas)

On How to Get Rid of the Craftsman (B. Dahlbom)

XV. Inferences About the Mind

The Puzzle of Split-Brain Phenomena (S.C. Bringsjord)

The Mark of the Mental (R. Puccetti)

Natural Teleology (S. Silvers)
